Introduction

Do you find yourself procrastinating about school work or studying?

We feel you!

Oftentimes, we find it difficult to stay focus and make the best use of our time. Such procrastination breeds mediocrity and mediocrity breeds even severe procrastination when we slowly lose the motivation to improve.

Punkt is here to give you a little external push to stop procrastinating by raising the stakes of your study sessions and the completion of your goals with our 3 core features:

1. **Betting System:**

Set your goals and bet with your friends. If you complete your goals, well done! Else, you will need to do a forfeit and prove it to your friends!

2. **Buddy System:**

Get yourself a buddy with a common background to study with and improve together!

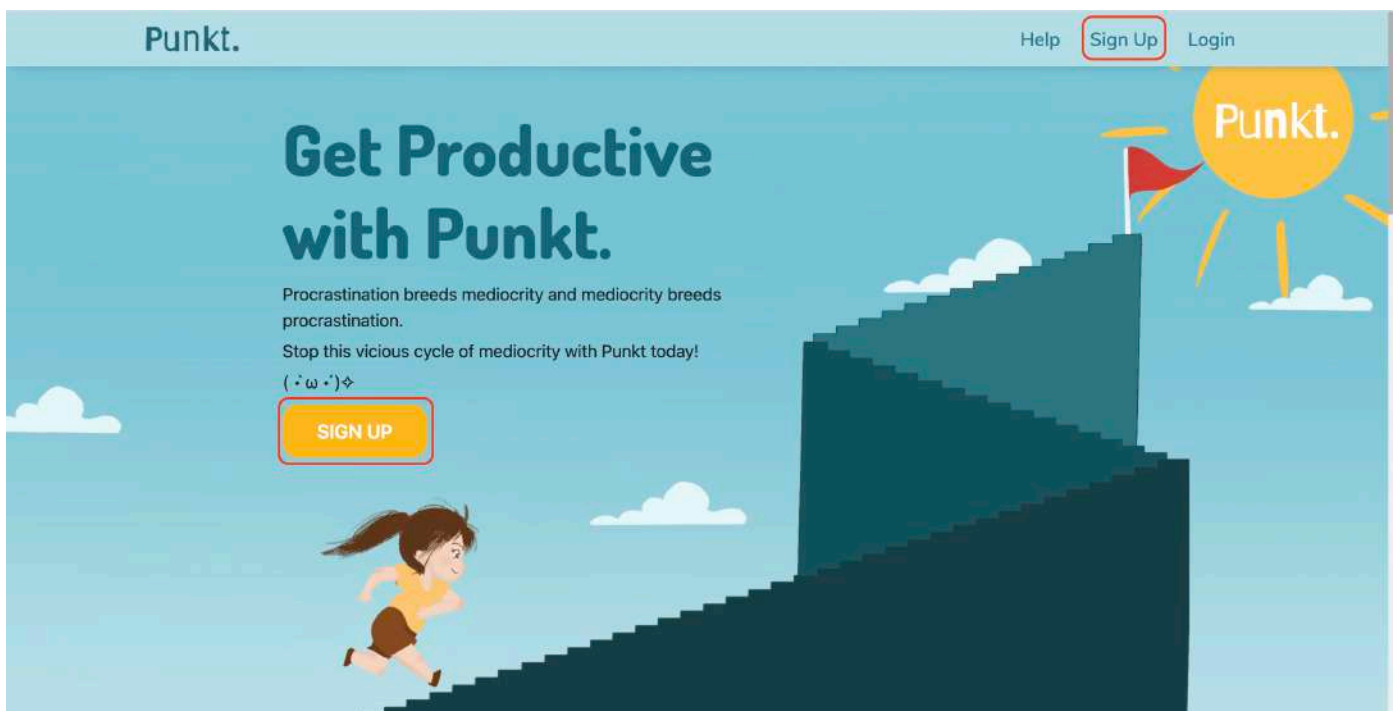

3. **Leaderboard:**

Accomplish your goals and watch yourself climb up the "Productivity" Leaderboard!

Quick Start

1. Access our web application at <https://punkt-orbital.netlify.app>
View our Demo Video [here](#).

2. Click "**SIGN UP**" button on the cover picture or on the top right navigation bar as labelled in the screenshot below.

3. Register an account using your email address.
Username and Email Address must be unique. You will receive an error alert if there is already a user with duplicate username and/or email address.
Password must be at least 6 characters with at least 1 UPPER case, 1 lower case and 1 numeric digit.

Create Account

Password must be at least 6 characters with at least 1 UPPER case, 1 lower case and 1 numeric digit.

One of Us?

To keep connected with us, please login with your personal details.

Create Account

Username has been registered.

Password must be at least 6 characters with at least 1 UPPER case, 1 lower case and 1 numeric digit.

Alert showing username has been registered.

4. Once you have successfully registered, you will be directed to the main page of our app.
 - The top navigation bar will display a search bar, buttons that redirects you to *Explore*, *Speculate*, *Leaderboard*, *Buddy*, *Settings* and *Profile* pages as well as a *Logout* button.
 - You may hover over each of the icons to see which page it leads to.
 - The left section of the page will display the posts created by you and those you are following.
 - This section will be empty if there is no post created by you and those you are following.

Setting Your Own Goals

On the right bar of the main/explore/speculate page, under the section "My Betting Goals", you will be able to see a form to create a new goal if you do not have one currently. Fill in the form and click "CREATE" button to set a new goal.

- If you have a goal, you will see the progress of your goal. Click  button to redirect to the Progress page of your goal.
- If you leave "Atonement" section as empty, it will be set to default atonement "Fulfil the request from the comment in the first post with most likes" after you created the goal.

「 Finish Orbital Milestone 3 README 」

Atonement: Treat those bet against this goal bbt	Progress: 0 / 3	Status: In Progress
--	---------------------------	-------------------------------

Have you completed your goals today? (You can only record once a day)

Image

Record

Progress

Click the text area to add description to your post.

Click "Image" to upload images as proof of your progress of the day. You can see the preview of the selected images and click **X** button to remove an image.

- You can only create ONE post a day with a maximum of 6 images per post.
- Note: As we are using Google's Cloud services for the uploading of images, if you are currently in countries (e.g. China) with access restrictions to Google, you might face problems uploading images. We recommend you to access our application with a VPN service.

read UML Diagram section

Report

Goal Outcomes

Case 1: Creator of the goal has successfully completed the goal by recording his/her progress consecutively for the number of days he/she has set for his/her goal.

- No. of productivity points added to the creator's current points = *no. of users bet against* $\times 10 + 10$
- Goal status will be changed to "Success".

Case 2: Creator of the goal has failed the goal if he/she do not record his/her progress for one day.

- No. of productivity points deducted from the creator's current points = *no. of users bet against* $\times 10 + 10$
- Goal status will be changed to "Failed".
- The creator of the goal will have to set an atonement post in his/her Settings page under "My Goals" section (*see more details in Settings page sub-section*) .
- Users who bet against this goal will be able to send messages to the creator of this goal in his/her Settings page under "My Bets" section (*see more details in Settings page sub-section*) .

If the goal has been completed successfully, or expired (failed goal), the section to record the user's progress will be disabled and the buttons to bet against the goals will be disabled for other users.

Have you completed your goals today? (You can only record once a day)

Image

The Record and Bet section will be disabled after a goal has been completed successfully or after a goal has been failed.

Record

THIS IS IMPOSSIBLE!

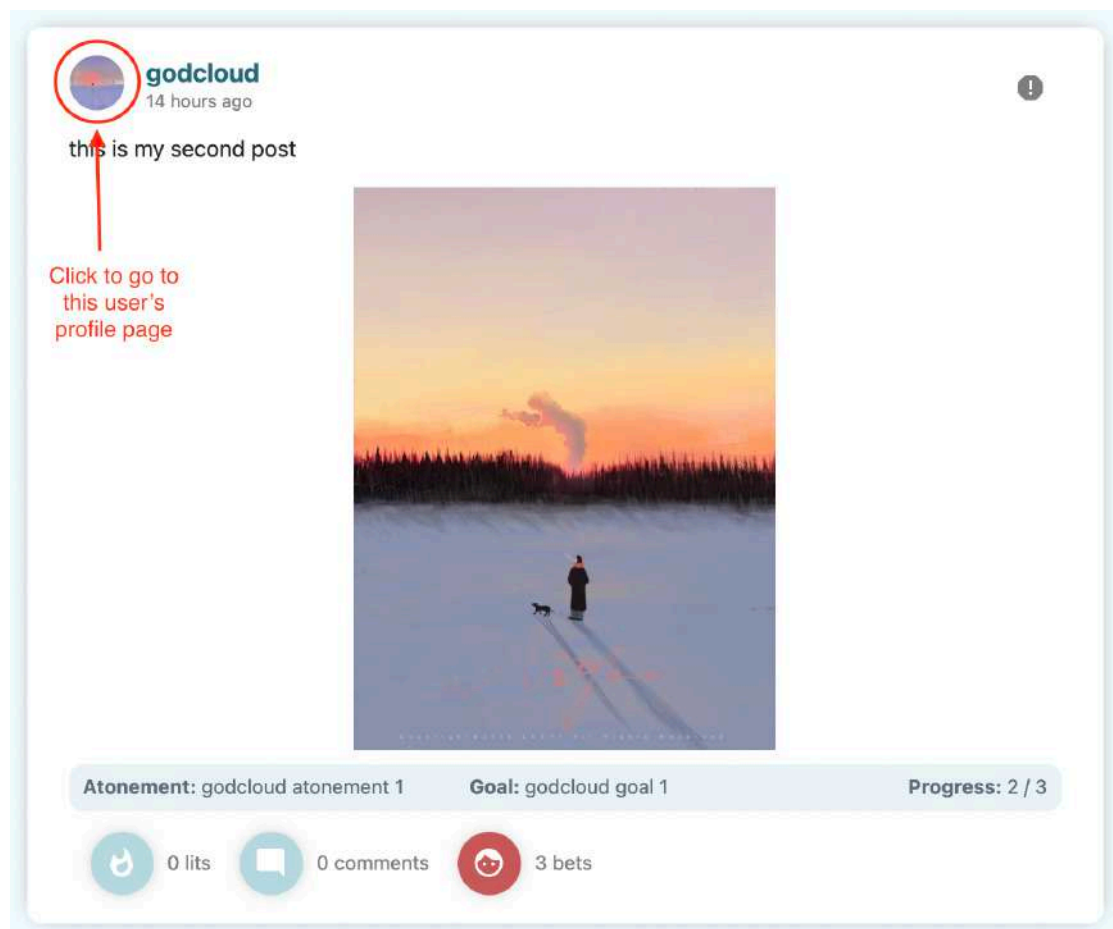

Buddy System

Click your profile picture at the navigation bar to be directed to your profile page.

Buddy Request

Click the user profile picture at their post to be directed to their profile page.

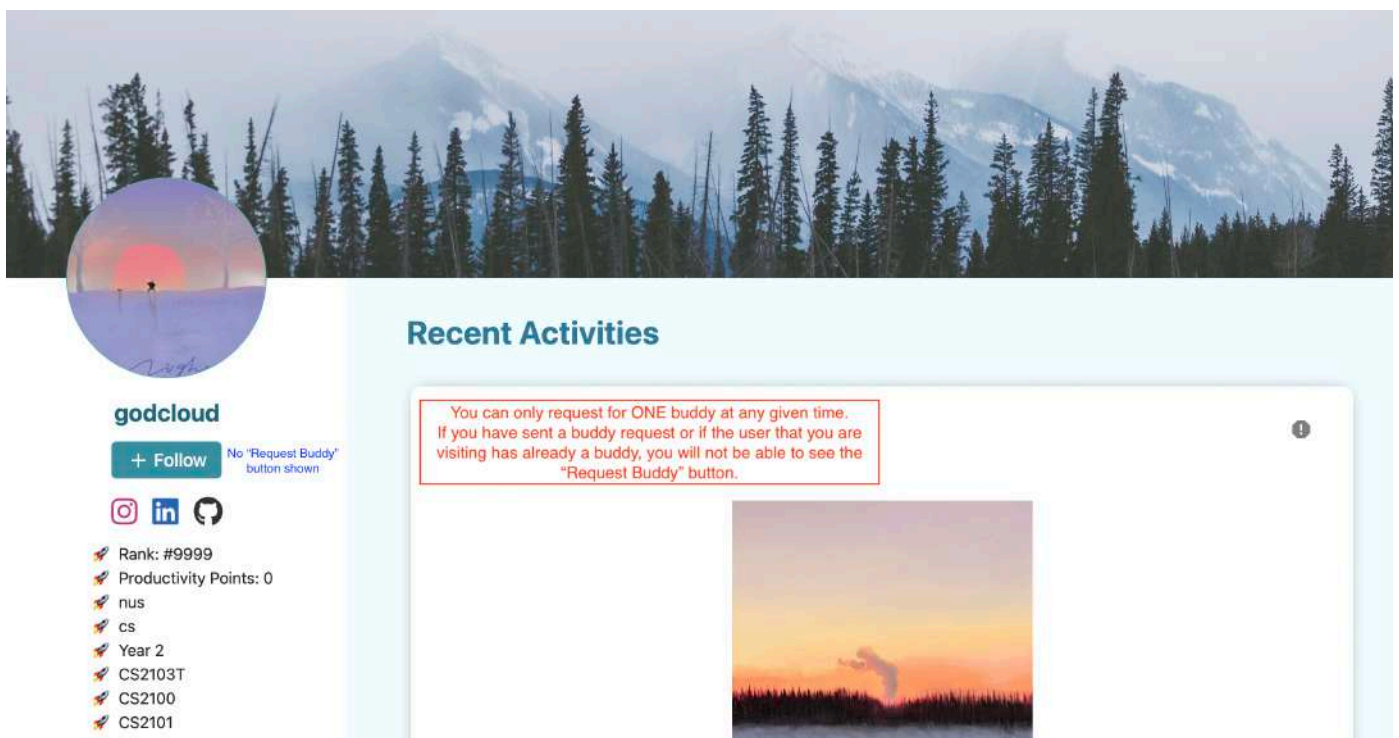

At the User Profile page, you can

- see the user's basic information (ranking, productivity points, school, major, etc depending on what the user has input in his/her profile),
- recent activities,
- request him/her to be your buddy (if the other party no buddy at the moment) and
- follow the user if you want to see his/her posts.

** Initial productivity points of a user is 0 and initial ranking is #9999.*

* If you or the user for this profile page already have/has a buddy, you will not see the "Request Buddy" button.

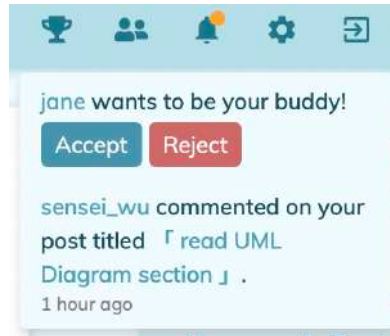

E.g. this user has a buddy so you will not see the "Request Buddy" button

Buddy Request:

- You can only send one buddy request at a time.
- If you have sent a buddy request, you can only send another one after the requested user has rejected your request.
- You can receive multiple requests from other users.

- If you received a buddy request, there will be a yellow badge shown on the 🔔 icon on the navigation bar.

Once the other user has accepted your buddy request / you have accepted a buddy request, you two will be paired as buddy for 30 days.

Afterwards, you can click "**Buddy**" icon on the navigation bar or "**Chat with Buddy**" button on the right bar of the Main/Explore/Speculate page to be directed to the Buddy page.

At the right bar of the Buddy page, you can see:

- your buddy's profile picture,
- your buddy's username,
- a progress bar showing the progress of the number of days you have been paired with your buddy, and
- the number of days left (out of a total of 30 days) as a buddy pair.

Daily Todo

- Display today's todo items which you have set for yourself the previous day which you can check off when you have completed them, as well as those of your buddy's to check on each other's progress.
- This list will also be displayed at the right bar under the section "Todos with Buddy" at the Main/Explore/Speculating page as shown previously.
- If you do not complete your todo items by the end of the day, these todo items will be marked as late, and displayed as red.

The screenshot shows the 'Daily Todo' section. On the left, there is a sidebar with the user's profile picture, username 'godhwee', and a progress bar showing '29 days left'. Below this are buttons for 'Daily Todo', 'Set Todo', and 'Live Chat'. The main content area is titled 'Display today's todo items which you have set for yourself the previous day'. It contains two sections: 'My Todo' and 'Buddy Todo'. The 'My Todo' section has a list of items: 'punkt report' and 'punkt vid', each with a checkbox. A red box highlights the checkboxes, and a red arrow points to them with the text 'Click the boxes to check off you todo items'. The 'Buddy Todo' section has a list of items: 'if have time check notification accepted bug' and 'README', each with a checkmark icon.

Set Todo

- Set your todo items for the next day.
- Click Delete icon to delete that todo item.
- Input your todo item and click **+** button to add that todo item to your todo list.

godhwee

29 days left

Daily Todo

Set Todo

Live Chat

Set Your Todos for Tomorrow!

punkt vid script

Delete todo item

What do you want to do tomorrow?

Click to add your todo item

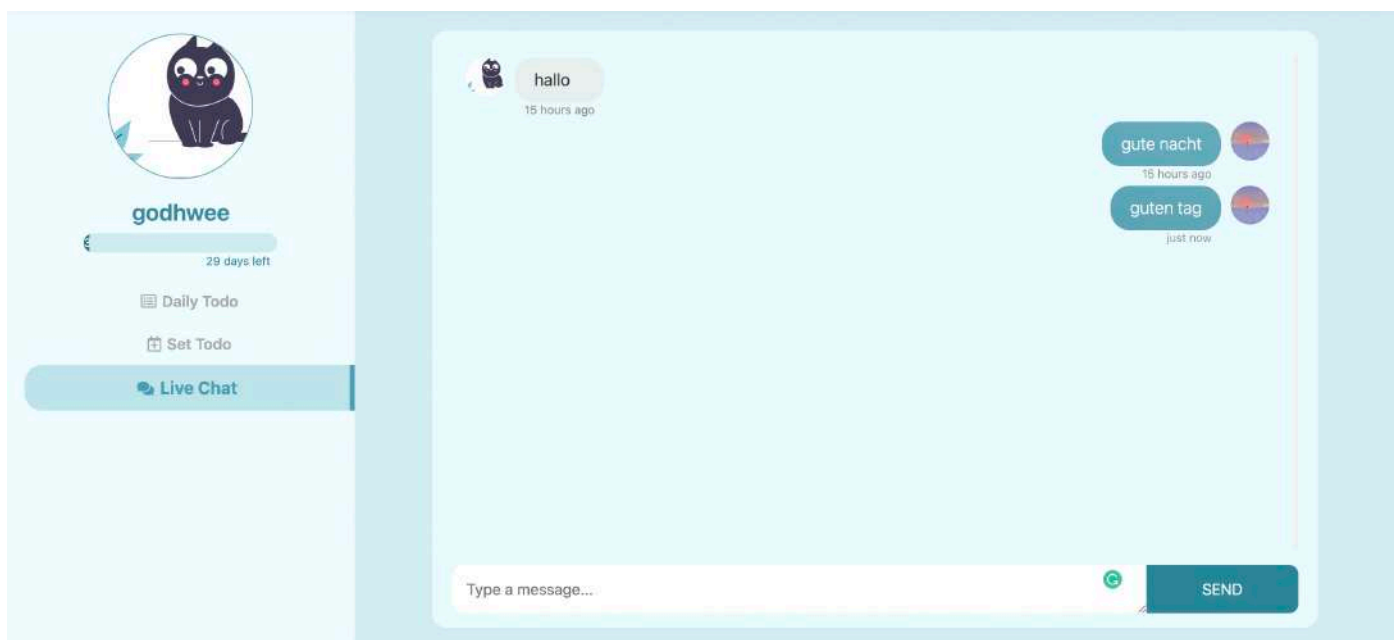

The todo items created here will be displayed in the "Daily Todo" section the next day.

Live Chat

Chat with your buddy.

Note:

- There is a known bug of one sent messages being rendered multiple times in live chat which occurs on a random basis.
- We attempted to rectify our code and tested for the bug again. Out of the 200 times we tested, we have not seen the bug anymore.
- However, as of now, we are unsure if the bug is truly rectified or just the probability of it happening is very low.
- If you encountered this issue, you may refresh the page to render the messages correctly and use "Contact Us" form to notify us that the issue still exists.

Leaderboard

Click 🏆 icon on the navigation bar to be directed to the Leaderboard page, where you can see the leading 50 users, ranked by their productivity points.

** Users with same productivity points will be ranked according to the time they created their account.*

You can choose to see Goals, Bets and Buddy History by toggling the drop down button to the right of these titles.

If you have a failed goal, you need to create your atonement post here at your goal history table.

- Upon clicking "Create" button, a modal with text area for recording your atonement post will pop up.
- Upon clicking "View" button, a modal with messages sent by users who bet against this goal will be shown.
- You may click anywhere in the grey translucent background to close the modal.

After you have created your atonement post, "Create" button will be changed to "View", which you can click to go to the progress page of this goal with the atonement post.

My Goals

Date	Title	Atonement	Status	Atonement Post	Messages
25 Jul 2021	jane goal	jane atonement	Failed	View	View

Click to go to the progress page of this goal with the atonement post.

Rows per page: 5 1-1 of 1

If the goal you have bet against has failed, you can send some messages to the goal creator here by clicking "Reply" button.

- e.g. If the goal atonement were to treat users with bubble tea, perhaps you can leave your Paylah/PayNow number here 🥺.
- Only the goal creator can view these messages.

My Bets

Date	Title	Atonement	Status	Username	Leave a Message
25 Jul 2021	jane goal	jane atonement	Failed	jane	Reply
24 Jul 2021	godcloud goal 1	godcloud atonement 1	In Progress	godcloud	NA
Click to leave a message for the goal creator of this failed goal.
